## Product Description

This pen comes in either a fountain pen or rollerball pen. The wood used is snakewood, which is an exotic wood that comes from a small, relatively rare tree found in the forests of Central and South America. Initially deep red in color, snakewood changes its stripes upon being exposed to air, which makes the wood eventually turn reddish brown.

The pen is a classic Artisan Statesman Pen designed and was with discriminating collectors in mind. Manufactured of the highest quality components, the Statesman features engraved insets on the cap and barrel ends surrounded by brilliant Rhodium plating. The writer has the ability to "post" the cap onto the pen body for writing and storage convenience. The rollerball assembly includes a rhodium-plated pen nib with a black premium Schmidt steel cartridge refill with a ceramic point (included in the purchase of your pen) and refills refills for these universal cartridges can be found at any office supply store. If you choose a fountain pen it will come with a German made two-tone medium nib with an iridium point.

This pen went through 16 sanding applications and was finished with cyanoacrylate (CA) that gives it a deep, mirror-like finish that holds up to scratches and will last for years

The pen measures 9/16" wide x 5-1/4" long. The pen you see in the image is the one you will receive. You will also receive a free velvet pen sleeve to protect your pen or to present as a gift.

Thank you for visiting!

## Product Attributes

- Dimensions: N/A
- Materials: Burl, exotic hardwood, exotic woods, satin wood, satinwood, Wood

- Choose pen style: Rollerball Pen
